

# Take care of your hearing health

*It's good for your ears - and your overall health too!*

## When should I get my hearing checked?

Hearing changes can come on so gradually that you may not even notice it's happening. In general, you should have your hearing screened every three to five years, and tested annually if you are over the age of 50 or experiencing any of the following:

- **Consistent exposure** to loud noises
- **Difficulty understanding** in noisy environments or in groups
- **Asking people to repeat themselves** or feeling like they are not speaking clearly
- **Ringings** in your ears

## Your Hearing Program\*

Cigna has partnered with Amplifon to save members an average of 66% off MSRP\*\* on hearing aids with additional benefit of continued support.. Plus, you'll also enjoy:

**Risk-free trial** - find your right fit by trying your hearing aids for 60 days

**Battery support** - a charging station or battery supply to keep you powered

**Follow-up care** - ensures a smooth transition to your new hearing aids

**Warranty** - peace of mind with coverage for loss, repairs, or damage
